Her top must had to come down at once, and she was unable to lug ber mainsail and carried the witer away up to ber hatch combings. It was probable that Capt. Barr did his best with the Thistle, knowing that it she were beaton her defeat would be easily explained by the fact that she was not in the race. In tared she was obliged to house her topmast, and even with that relief she found it diffi-HARDWARE AND CUTLERY.

hibition conference met in Staunton yester-

was principally occupied in discussing the platform. Objection was made to the introduction of any issue save prohibition, but, by an overwholming majority, the ob-jection was overruled and the platform, as reported, was adopted. The platform demands the prohibition of manufacture and sale of alcoholic beverages by State and national laws, and that such laws be vitalized by a party based upon the principle and uncompromisingly committed to their enforcement. It declares in favor of disfranchising men who buy or sell votes, and of restrict men who buy or sell votes, and of restrict-ing immigration; declares for arbitration and the establishment of a State labor bu-reau to guard the safety of miners and man-ufacturing employees; favors giving me-chanics first liens; against further granting public lands except to settlers; favors the

prevention of discrimination against farmers and the prohibition of discrimination in railroad rates; favors free schools and the Blair bill and like measures. On the State debt it declares: "We believe the democratic and republican parties have used the State debt as a distracting issue in State politics, and this shifting policy has delayed its cettlement. We believe a final settle-ment mutually satisfactory to the State and the creditors can be made, and all legislation upon this matter should be directed to

that end." The last plank provides: "Wa nelleve existing bossism and corruption in Sect'y, and Treasurer, M. B. HARLOW.

THE GOLD MINING COMPANY (location, Music Mountains, A. T.,) is as sound a mining enterprise as was ever placed on the market, and its possibilities have never been exceeded. Every share should double in value within a year, and they may quadruple, as they are based on property that would ordinarily have been capitalized ten (10) times as great on account of its known richness and promise.

The shares are made small so that any one can invest. Subscriptions for five shares are as welcome as those for hundreds.

Every dollar of earnings will go to the stockholders in dividends, as there is nothing else that they can be used for. A Wisewell mill, capacity 20 tons per day, with powerful machinery,

has been purchased and will be on the ground ready for erection at the mine within the next thirty days. The solid basis upon which the company is founded and the practical proofs of the richness of the mine have already secured the confidence

of the public, and the stock has steadily advanced in selling value. Within the last few days bona fide sales have been made AT PAR. There is no better stock on the market for a permanent investment.
